Using musical theater as a platform, CAMP SING OUT will enhance social skills and increase self-esteem. Campers and peer mentors work along with FAR Therapists to bring characters to life through music and movement. A uniquely effective component to FAR's theater workshop is the "Peer Mentor Program," which consists of typical teens and young adults who are matched one-on-one with campers. The mentors volunteer their time to attend the workshop with their "theater buddy" and are onstage with them during the final performance. Space is limited to 15 campers, so reserve your spot today!

New campers will be evaluated prior to the workshop by a FAR therapist to ensure the workshop is the right fit.
